COMPANY PROFILE

January, 2021

About IntlSight

IntlSight is a Localization and Technical Solutions service provider located in Cairo, Egypt. IntlSight is stablished in 2013 by the most experienced and talented translation and localization industry leads in the Middle East. Our target is to help our clients to have their solution designed, localized, published, and distributed in multiple languages and different markets across the globe.

Why to Choose IntlSight

1- Perfect Quality

Our experienced talents are always ready to do their job in the perfect way.

2- Lowest Cost

We provide our services in competitive prices. You will not pay a penny more than the true value of the service.

3- Fast Delivery

We manage the schedules and prioritize the tasks well to keep projects on track and prevent the bottlenecks.

VISION

To become on top of the leading Translation and Localization services providers, providing world-class services to our customers through continuous improvement driven by the integrity, teamwork and creativity of our people.

MISSION

To help our customers have their products available and distributed everywhere around the world by providing them a full range of language services in the highest quality and lowest cost.

IntlSight provides a wide range of Linguistic and Technical services. Our services are not limited to translation; we also provide Website Globalization, eLearning Localization, Software Localization, Games Localization, Mobile Apps localization, Multilingual Desktop Publishing, and more.

• TRANSLATION

We provide professional translation and localization services to our customer in an ultimate quality, reasonable turnaround time and competitive prices. We do not just translate your content, we prepare and study the content before it is translated by professional native linguists.

• WEBSITE GLOBALIZATION

Website globalization is not just translating the website content into the target language. We take into our consideration the common elements found in the majority of modern websites such as HTML elements with text, Digital assets, Permalinks, Images with text and Multilingual SEO. All of these components must be evaluated when doing website localization or you will end up with a site that is at best visually unappealing, and at worst, incomprehensible to your target audience.

• E-LEARNING LOCALIZATION

We have a specialized practice group for eLearning localization. Our services encompass translation, cultural adaptation, desktop publishing, animation, testing and audio/multimedia services. IntlSight offers the opportunity for our customers to work with us from initial curriculum development to final launch of translated material.

• SOFTWARE LOCALIZATION

We help companies reach global markets with high-quality localized software products that meet the language and functionality requirements of local users in the given market and locale.

• GAMES LOCALIZATION

IntlSight provides translation, localization, and multimedia services to the gaming industry. Our services cover a wide variety of electronic formats in all the commercial languages. We offer a unique combination of resources, technologies and expertise that ensures ultimate quality at competitive prices. We can meet your requirements whether for translation, voice-over or testing services.

• MULTIMEDIA LOCALIZATION

Multimedia Localization is the process of adapting multimedia content to match the linguistic and cultural preferences of the target audiences. IntlSight efficiently localizes multimedia content, offering powerful consistent communications with your audience from all over the world. IntlSight has been working as a trusted partner to global businesses and organizations, delivering a full range of fast, professional, and affordable multimedia localization services.
